Palani, Tamil Nadu – 642113, India

## Objective

Motivated MCA student with a B.Sc. in Computer Science and hands-on experience in full-stack development, data analytics, and prompt engineering. Quick learner, adaptable, and a strong team player. Passionate about building useful software solutions, analyzing data for insights, and contributing effectively to technology-driven teams.

## Internship

**CSE Computer Education** Dec 2025 – Feb 2026
Trainer – Spoken English & Python Programming intern

- Designed and delivered structured training sessions in Spoken English and Python Programming to diverse student cohorts.
- Executed digital marketing initiatives to enhance institutional outreach and drive program enrollment.
- Developed curriculum materials and hands-on exercises to ensure practical, results-oriented learning outcomes.
- Mentored students on real-world Python applications, nurturing problem-solving skills and coding proficiency.

**TIEKE** June 2025 – July 2025
Digital Transformation | Social Media Analytics Intern

- Engineered a structured lead database of 500+ startups, streamlining outreach workflows and improving targeting accuracy.
- Automated Google Sheets formatting pipelines, reducing manual effort and enhancing data consistency across teams.
- Conducted in-depth market analysis on startup datasets to identify emerging service trends and business opportunities.

**iLife Technology** 2024
*Full Stack Development Intern*

- Developed fully responsive web interfaces using HTML, CSS, and JavaScript, ensuring cross-device compatibility.
- Enhanced UI/UX across multiple pages by applying modern design principles to improve user engagement.
- Collaborated with the development team on debugging, testing, and QA to maintain robust code quality.

## Education

**Master of Computer Application** 2024 – 2026
Jamal Mohamed College, Trichy
Percentage: 75%

**Bachelor of Science in Computer Science** 2021 – 2024

Jamal Mohamed College, Trichy

Percentage: 75%

**Higher Secondary Certificate** 2021

Government Higher Secondary School, Madathukulam.

Percentage: 78%

## Projects

---

**>> Comm-Unity(Embrassing Civic Sense)** Jan 2026

- Engineered a high-performance **Grievance Redressal System** that automates the lifecycle of civic issues from "New" to "Solved" through a real-time tracking dashboard..
- Integrated **Geospatial Tracking** and **"Pincode Lockdown"** to ensure every report is instantly routed to the correct regional authority, eliminating administrative "Black Holes".Crafted custom UI components — banners, cards, and buttons — for an engaging browsing experience.
- Engineered a cloud-native architecture utilizing **Flutter/Dart** for the reactive frontend, **Firebase Firestore** for real-time data sync, and **Cloudinary** for evidence hosting.

**>> Burger House Website** Jan 2025

- Designed a responsive restaurant landing page featuring menus, offers, and a contact section.
- Implemented flexbox and media queries for seamless cross-device compatibility.
- Crafted custom UI components — banners, cards, and buttons — for an engaging browsing experience.

**>> StayBnB** Dec 2024

- Built a travel listing platform with property cards, dynamic offer sections, and smooth CSS transitions.
- Utilized CSS Grid to deliver a polished, fully responsive layout across all screen sizes.
- Developed interactive location cards with intuitive UI to enhance the user booking experience.

## Skills

---

**Web Technologies:** HTML, CSS, Python, Java

**Database:** SQL

**Tools:** Microsoft Office, Google Sheets, Google Workspace

**Data Skills:** Data Collection, Market Research, Web Research, Data Analysis

**Soft Skills:** Communication, Collaboration, Critical Thinking, Active Listening, Mentoring

## Certifications

---

- GUVI Certified Python Developer
- Basics of Computer Networks
- Basics of Android Programming

## Languages

---

Tamil, English
