PROFESSIONAL SUMMARY

MCA student with a strong foundation in full stack development, Python, and modern web technologies. Completed internships in software development, digital transformation, and training. Built multiple real-world projects using React, Flutter, and Firebase. Eager to learn and grow as a fresher in the IT industry.

INTERNSHIP EXPERIENCE

Trainer - Spoken English & Python Programming | CSE Computer Education *Dec 2025 - Feb 2026*

- Handled high-volume inbound and outbound calls, successfully converting multiple leads into paid enrollments and directly contributing to revenue growth.
- Executed end-to-end lead management: prospecting, follow-up calls, objection handling, and closing, achieving consistent enrollment targets.
- Designed and delivered structured training programs in Python and Spoken English, maintaining strong learner engagement and satisfaction.
- Ran digital marketing campaigns using AI-optimized targeting strategies, significantly boosting program visibility and inbound inquiry volume.
- Produced video content for lead generation and managed social media channels to attract and nurture prospective students.

Digital Transformation & Social Media Analytics Intern | TIEKE *Jun 2025 - Jul 2025*

- Generated and organized 1,500+ targeted leads (CBSE & Matriculation school principals across Tamil Nadu and Kerala) using structured market research and data collection.
- Built a startup lead database of 500+ entries from Startup India (Education, Healthcare, Finance, IT sectors), enabling precise CRM-style outreach for business teams.
- Applied data segmentation techniques to categorize and prioritize leads, directly improving outreach efficiency and conversion rates for the sales team.
- Conducted in-depth market analysis to identify AI/tech service trends and new business opportunities, supporting strategic business decisions.
- Automated Google Sheets pipelines to streamline lead tracking, reducing manual effort and improving data accuracy for ongoing campaigns.

Full Stack Development Intern | iLife Technology *2024*

- Collaborated with cross-functional teams on client-facing web projects, developing communication and customer-oriented problem-solving skills.
- Supported debugging, QA, and project delivery, ensuring timely and quality outcomes aligned with client requirements.

PROJECTS

Digital Showroom Management Platform | React, Flutter, Firebase, Cloudinary github.com/MohamedThanish/digital-showroom-platform

- Architected a full-stack retail management system with a React customer-facing website and Flutter admin app, synchronised in real-time via Firebase Firestore.
- Engineered an automated product update pipeline where admin-side changes propagate instantly to the live customer site with zero manual intervention.
- Integrated Cloudinary CDN for optimised image storage and delivery, built WhatsApp enquiry automation, and implemented dynamic category and stock management.

Comm-Unity – Grievance Redressal System | Flutter, Firebase, Cloudinary, Geospatial API github.com/MohamedThanish/CommUnity-Embracing-Civic-Sense

- Engineered a cloud-native civic platform automating the full grievance lifecycle (New → In Progress → Solved) with a live tracking dashboard for citizens and authorities.
- Integrated geospatial APIs and Pincode Lockdown logic to auto-route submitted reports to the correct regional authority, reducing manual triage overhead.

StayBnB – Travel Listing Platform | HTML, CSS, JavaScript mohamedthanish.github.io/stay-bnb/

- Built a responsive travel listing platform with dynamic property cards, offer sections, and CSS Grid layout optimised for all screen sizes and devices.

Burger House – Restaurant Landing Page | HTML, CSS, JavaScript mohamedthanish.github.io/burger-house-project/

- Designed a fully responsive restaurant website with menu displays, promotional offers, and a contact section using flexbox and media queries.

EDUCATION

Master of Computer Applications (MCA) | Jamal Mohamed College, Trichy 2024 – 2026

Percentage: 75%

B.Sc. Computer Science | Jamal Mohamed College, Trichy 2021 – 2024

Percentage: 75%

Higher Secondary Certificate (HSC) | Govt. Hr. Sec. School, Madathukulam 2021

Percentage: 78%

TECHNICAL SKILLS

Languages & Frameworks: Python, JavaScript, HTML, CSS, React, Flutter, Dart

Backend & Cloud: Firebase (Firestore, Auth, Storage), Cloudinary, REST APIs, Geospatial APIs

Tools & DevOps: Git, GitHub, VS Code, Android Studio, Google Sheets Automation, MS Excel

Concepts: Full Stack Development, Real-time Sync, Cloud-native Architecture, Data Segmentation, Agile Collaboration

Digital & Analytics: Social Media Analytics, AI-assisted Content, Digital Marketing, Market Research

Languages: Tamil (Native), English (Professional)

CERTIFICATIONS

- GUVI Certified Python Developer
- Basics of Computer Networks
- Basics of Android Programming
